

**TEST CORRECTIONS AND  
ERROR ANALYSIS**

NAME: \_\_\_\_\_ PD. \_\_\_\_\_

TEST \_\_\_\_\_ DATE DUE: \_\_\_\_\_

**PARENT SIGNATURE:** \_\_\_\_\_

You are being given the opportunity to retest to improve your test score. Rework the problems that you missed on the original test, then schedule with me a time to take a retest. The highest grade you can make on the retest is 70.

In order for you to earn the right to retest, you must do all of the following:

1. Rework all incorrect problems on this analysis sheet. You may use your class notes. If you need help, please come to a tutorial.
2. Write the specific reason you missed the problem. (ie: Didn't know vocabulary, mismultiplied, misread directions, wrong formula, etc.)
3. Rework the problem showing all steps. If a graph is required, use a separate sheet of graph paper.
4. Write the new answer clearly in the answer column.
- \*5. Additional corrections are to be written on notebook paper using the format shown below. Be sure to have only one problem per row.
6. Have your parent sign the front of this sheet. This is required before a grade will be changed.
7. Attach your test corrections and error analysis work to the front of your test and return it by the due date. You may not take the retest unless this analysis sheet is done.
